# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On January 4, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
January 5 - 13, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of January 15, 1976 (based on reports from exporters during the week ending January 4, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 rose by 699,900 metric tons (MT), the highest weekly increase since the week ending November 16, 1975. New sales to Brazil (170,000 MT), the Republic of Korea (146,000 MT), Peru (95,000 MT), and commitments to unknown destinations (200,000 MT), accounted for 87 percent of the increase. The new sales to Brazil and the Republic of Korea represented the highest and second highest weekly increases, respectively, to those countries since the beginning of the marketing year. An 84,800 MT increase to the Soviet Union reflected transfers from sales previously reported as optional origin rather than new sales.

Feedgrains: The apparent export commitments for feedgrains in 1975/76 increased by 579,100 MT. Corn commitments climbed by 403,400 MT with major increases to unknown destinations (122,700 MT) and the Soviet Union (163,100 MT); the latter reflecting transfers from optional origin rather than new sales. Corn commitments for 1975/76 have now reached 20.4 million MT, 2 percent above the level of the comparable period last year. Grain sorghum commitments increased by 136,100 MT to a total of 3.5 million MT; largely on the basis of a 91,800 MT increase in commitments to Japan, which now total 1.3 million MT.

Soybeans: The apparent export commitment for 1975/76 increased by 21,500 MT, primarily reflecting increased commitments to Japan, the European Community (EC), and Portugal. Exports during the week totaled just 138,900 MT--the EC (58,200 MT), Japan (47,400 MT), Spain (19,700 MT), and Portugal (13,600 MT) being the only takers.

Soybean Oilcake and Meal: The apparent export commitment increased by 60,500 MT, primarily reflecting increased commitments to the EC, Poland, Spain, Czechoslovakia, and Canada. Exports during the week totaled 91,700 MT, primarily to France (18,600 MT), Poland (16,100 MT), Italy (12,200 MT), Spain (11,200 MT), and Czechoslovakia (10,400 MT).

Consumption of all oilseed meals in West Germany increased by 20 percent during 1974/75 with soybean meal consumption increasing by 26 percent. The boom resulted from increased substitution of oilmeals for grain in cattle and hog feeding. In view of the relatively small 1975 grain and roughage crop, the trend is expected to continue in 1975/76 at a moderate rate. Soybean meal consumption in West Germany is forecast to rise by 2.7 - 2.9 million MT. Fishmeal use, which was up by 100,000 MT last year, will be down substantially in 1976 as compounders are reluctant to include fishmeal in their program because of uncertainty about deliveries. The deficit should be met by soybean meal (an estimated increase of 50,000 MT) and nonfat dry milk. Requirements for hog feed will be up by about 100,000 MT, and for cattle feed by about 50,000 MT.

Soybean Oil: The apparent export commitment increased by 14,400 MT,

primarily reflecting an increase in commitments to Pakistan. The Pakistani commitment for soybean oil now totals 44,500 MT, all of which is assumed to have been purchased using CCC financing. As of January 12, approximately \$16 million in CCC credit was still earmarked for additional Pakistani oil purchases. Furthermore, Pakistani officials report that all import contracts for palm oil will be honored.

Cotton: The apparent export commitment in 1975/76 for Upland cotton increased by only 13,000 running bales (RB), mostly on the basis of new sales to Spain and the Republic of Korea. Total exports through January 4, approximately the first 5 months of the marketing year, were 1.2 million RB. This is a monthly average of 240,000 which, if maintained for the full marketing year, would result in exports of 2.9 million RB. U.S. prices are now much closer to international levels, increasing the possibility for greater exports as demand continues to improve. Cotton values rose by 200 points in Europe during the week. By January 9, 1976, prices had increased another 200 points, but selling interest was very limited with offerings for many growths nominal.

OUTSTANDING EXPORT SALES AND EXPORTS - 1975/76 MARKETING YEAR
